Kevin O'Neil

Software Engineer - Frontend-first with some backend exposure

Toronto, ON | kevin.oneil@candidate.example | (555) 402-7710
Portfolio: kevinoneil.dev | LinkedIn: linkedin.com/in/kevinoneil

SUMMARY

Product-focused engineer with 6 years of experience building user-facing web apps. Comfortable collaborating with design and shipping UI quickly. Limited backend ownership; has contributed to small Node and PHP endpoints but primarily focused on frontend development.

EXPERIENCE

Senior Frontend Engineer - E-commerce Marketplace (Mid-size)

2021 - 2025 | Toronto, ON

- Led React + TypeScript migration for storefront and admin tools; improved Lighthouse scores and reduced bundle size.
- Built UI components and design system primitives used across 5 product teams.
- Occasionally added small Node.js routes and GraphQL resolvers under guidance from backend team.

Frontend Engineer - Digital Agency

2019 - 2021 | Toronto, ON

- Developed marketing sites and dashboards; integrated with third-party CMS tools.
- Worked mostly with JavaScript/React; minimal exposure to databases beyond basic queries.

SELECTED PROJECTS

Personal Finance Tracker (Side Project)

2023 - React, Firebase

- Built a small app for tracking expenses with Firebase auth and Firestore; no AWS or SQL usage.

SKILLS

Languages: JavaScript/TypeScript, HTML/CSS
Backend: Basic Node.js, Firebase; limited API design experience
Cloud/Infra: No meaningful AWS experience
Databases: Firestore (basic); limited SQL

EDUCATION

Toronto Metropolitan University

BSc, Computer Science | 2013 - 2017 | Toronto, ON
